

ENVIRONMENTAL POLICY LLC "Tipografia "PECHATNYA"

"The sustainable development of the Russian Federation, the high quality of life and health of the country's population, as well as national security can be provided only if natural systems are preserved and the appropriate quality of the environment is maintained."

(An extract from the Russian Ecological Doctrine)

- LLC "TIPOGRRAFIA "PECHATNYA" (hereinafter referred to as the Company) - the leader in the CIS & Russian printing market - provides full cycle of industrial production of cardboard packages, instructions, self-adhesive labels and printing on tube laminate. The company is fully aware of its social responsibility - preservation of the environment and rational use of natural resources.
- PECHATNYA's products are completely safe, environmentally-friendly, and are made of cardboard manufactured from certified wood materials. The latter means that all the forests that have been depleted for the production of cardboard are being restored. Five new trees are planted in place of one felled. Cellulose and recycled cardboard is certified in accordance with FSC and PEFC.
- PECHATNYA values its reputation of a company with high social responsibility and is always open for dialogue with all parties interested in sustainable development and rational use of natural resources.
- The Company's environmental policy is based on laws and regulations of the Russian Federation, the main provisions of international conventions and agreements, and is aimed at harmonious development of production, the social sphere, society and preservation of the environment.
- The strategic objective of the Environmental Policy is ensuring a favorable state of the environment, preserving natural ecological systems and natural resources to meet the needs of present and future generations, realization of the right of each person to a favorable environment and ensuring environmental safety.

The basic principles of environmental policy include:

- › constant and systematic reduction of the negative impact of technological processes on the environment, reduction of environmental risks through the introduction of the best available technologies;
- › achieving the level of industrial and environmental safety, which meets current international standards and requirements;
- › rational use of natural resources, based on the introduction of innovative natural and resource-saving technologies;
- › systematic monitoring of compliance with industrial and environmental safety requirements;
- › ecological monitoring of the environment;
- › continuous improvement of environmental protection and environmental management systems;
- › continuous improvement of staff competence in environmental matters;
- › openness of socially significant information on the Company's environmental performance;
- › running the Company's activities without the use of ozone-depleting substances.

Company's Obligations

LLC "Tipografia "PECHATNYA" assumes the following obligations for the implementation of the basic principles of environmental policy:

- comply with the requirements of the legislation of the Russian Federation in the field of environmental protection, sanitary and epidemiological welfare of the population, adhere to the principles of the Company's environmental policy;
- ensure continuous improvement of the quality of environmental activities and management systems for this activity;
- continuously improve the state of industrial and environmental safety at work;
- to increase the energy efficiency of production processes at all its stages;
